

The 27<sup>th</sup> Swiss International  
Short Course on

# Travellers' Health

18 – 22 January 2021  
at the Swiss TPH, Basel, Switzerland

A course providing comprehensive training in all aspects of travel medicine under the patronage of the World Health Organization, TropNet and the Swiss Society of Tropical and Travel Medicine

## Course aims

The certificate course «Travellers' Health» aims at preparing the participants to provide relevant information for travellers and to assess travel-related problems occurring during travel and after their return with a special focus on tropical diseases. The general objectives are to provide up-to-date information in travel medicine with regard to:

- Preventive pre-travel advice including immunizations and other aspects during travel
- Appropriate risk assessment and behaviour during travel
- Management of travel related diseases based on individual and epidemiological features

## Structure

The course consists of three parts:

### 1. Pre-travel advice

Goals of travel medicine, risk analysis, vaccinations, vector borne disease prophylaxis, special risk groups, efforts to harmonize and standardize travel advice, information tools, communicating information.

### 2. Health problems abroad

Risk factors and common health problems during travel and their management.

### 3. The returning traveller

Differential diagnosis of travel-related diseases (fever, diarrhoea, skin disorders, eosinophilia), management of imported diseases.

## Evaluation and Certification

A multiple choice question test at the end will be used to assess the individual performance of the participants. Certificates confirming successful completion and / or attendance will be issued.

Within the tropEd Master of International Health-curriculum this course counts for 1.5 credit points (ECTS).

27.5 CME Credits are granted (FMH)

## Course fee

The total course fee is CHF 1200.–. For students registered as tropEd Master student the course fee is CHF 1000.–. The fee must be paid 4 weeks before the start of the course. This sum includes the registration fee of CHF 100.– which is due at the time of acceptance. If a participant does not attend the course, the registration fee cannot be reimbursed. If cancellation of attendance is less than 4 weeks before beginning of the course an additional fee of CHF 350.– will be charged.

## Participants

The course is open to medical doctors, senior nursing staff, pharmacists and other health professionals, but also to travel industry staff with a strong interest in travel medicine.

The number of participants is limited to 40; the course language is English.
