...TWO OF THE MOST EXCITING ENDOSCOPY EVENTS AT ONE TIME!

IMPORTANT DATES

Opening of Registration:	Thursday, September 1, 2011
Opening / Call for Abstracts:	Thursday, September 1, 2011
Deadline Early Bird Fee:	Monday, October 31, 2011, 12:00 CET +1
Deadline Abstract Submission:	Friday, November 11, 2011, 12:00 CET +1
Notification Abstract Acceptance:	Wednesday, January 18, 2012
Deadline Regular Fee*:	Wednesday, February 29, 2012
*after this date Onsite Fees will apply	
Deadline Online Registration*:	Wednesday, March 21, 2012
*after this date only Onsite Registrations are possible

Two World Class Meetings –
One Event

5th World Congress for
**ENDOSCOPIC SURGERY of the BRAIN,
SKULL BASE & SPINE**

combined with
The First Global Update on
FESS, THE SINUSES & THE NOSE

Vienna, March 29-April 1, 2012

Presidents: **H. Stammberger & M. Mokry**

Organised by the
Austrian Society for ORL, H & NS

YOU'RE AN ENDOSCOPIC SURGEON?

So, would you like to see:

P.J. **Wormald** perform a dissection of the intracavernous carotid?
Valerie **Lund** do an orbital decompression?
Ricardo **Carrau** elevating a nasoseptal (Hadad) flap?
Aldo **Stamm** dissecting the clivus?
Dharambir **Sethi** go live for the pituitary?
David W. **Kennedy** demonstrate a spheno ethmoidectomy?
Daniel **Simmen** remove a skull base tumour?
Piero **Nicolai** approaching the pterygopalatine fossa?
Kris **Moe** entering the cranium transorbitally?
Paolo **Castelnuovo** doing a nasopharyngectomy?
Four-hand-transnasal techniques by some of the best neurosurgeon-ENT-teams on the globe?
An **endoscopic face lift**?
All endoscopic ways to **frontal** and **sphenoid** sinuses?
Roger **Jankowski** doing a "nasalisation"?
Navigation and Powered instruments?
And much more like DCR, optic nerve decompression, odontoid resection etc., etc.?
All **live on stage**, on the best specimens available?

THEN COME TO VIENNA IN 2012 FROM MARCH 29TH – APRIL 1ST

for the **5th World Congress for Endoscopic Surgery of the Brain, Skull Base and Spine**, combined with The **1st World Congress on FESS, the Sinuses and the Nose**

These 2 meetings will bring together the pioneers and today's most renowned endoscopists, neurosurgeons and rhinologists alike, radiologists, navigation developers, instrument makers, and visionaries. All will evaluate the achievements of the last 25 years of sinus, skull base and brain and spine endoscopy: Where have we failed? Where should we change or modify our techniques; where can we **avoid surgery**? Experts will try to give the answers! Any new surgical tricks, new sophisticated instruments, endoscopes, 3D – HD cameras, navigational tools, the latest in balloon-based technology – it all will be there and discussed intensively.

There will be over 20 surgical live demonstrations by experts on the best anatomical specimens available provided and prepared by Professor M. Tschabitscher from the Vienna Anatomy Department. From uncinectomy to frontal and sphenoid approaches, from "simple" disease to tumour management, from DCR to CSF-leak closure, from management of bleeding to post operative care, from the latest imaging modalities, navigational devices – all will not only be discussed in formal round tables, but demonstrated live on stage on specimens. Live video sessions of unedited surgical procedures with original sound tracks will give you that authentic "theatre feeling" including the "oops" and real troubles, as if happening the very moment you watch.

CALL FOR ABSTRACTS

Come and share with us **your experience!**

Turn in **your abstracts** - The endoscopic community is eager to hear **you**.

Topics include, but are not limited to: Acute and chronic rhinosinusitis, tumours of sinuses and skull base and brain, paediatric endoscopy, angiofibroma, choanal atresia, meningioma, clivus, pituitary and beyond, brain and spine lesions, endoscopic face lift and rhinoplasty, complications, intraoperative navigation, robotics, 3D cameras, HD, the latest imaging and balloon-based technology, limitations of endoscopic approaches, controversies and complications, management of bleeding, closure of large skull base defects, avoidance of surgery, adaptive ASA-desactivation and many more.

More detailed guidelines for the online abstract submission available on **www.endovienna2012.com** starting from August, 24th, 2011.
Abstract Submission starts on September 1st, 2011.

REGISTRATION FEES

Take advantage of the very affordable Early Bird registration fees and register in time.

	Early Bird Fee Until Oct 31, 2011	Regular Fee Oct 31, 2011 to Feb 29, 2012	Onsite Fee From March 1, 2012
Delegate	350	500	650
<36 years old*	250	350	450
Accompanying Person	90	90	110
Instructional Courses	10	15	20

*Date of congress is valid. Written proof needed

COMMITTEE & SPECIAL GUESTS

Congress Presidents

H. Stammberger, M.D.
M Mokry, M.D., Co-President

Secretaries General

H. Braun, M.D. (ORL, H&NS)
Verena Gellner, M.D. (Neurosurgery)

Guests of Honor

Amin Kassam, M.D.
Manfred Tschabitscher, M.D.
Paolo Cappabianca, M.D.
Wolfgang Draf, M.D.

Distinguished Keynote-Speakers

David W. Kennedy, M.D.
Valerie J. Lund, M.D.
Jatin Shah, M.D.
Aldo Stamm, M.D.
P.J. Wormald, M.D.
James Zinreich, M.D.
