WHY SHOULD YOU ATTEND?
• You will be updated on the latest developments in the field of clinical pharmacology of HIV and Hepatitis therapy.
• You will have an understanding of the pharmacologic challenges that still exist and how to approach these challenges.
• You can engage in exciting and informal discussions with colleagues at poster sessions, roundtables, case-based presentations.

WHO SHOULD ATTEND?
Experts in HIV and Hepatitis, clinical pharmacologists, pharmacists, clinicians, industry representatives, government representatives, postgraduate students and others involved in the clinical pharmacology of HIV and Hepatitis therapy.

MEETING DESCRIPTION
The 17th International Workshop on Clinical Pharmacology of HIV & Hepatitis Therapy provides a unique platform where industry and academic pharmacologists share and discuss the latest developments on clinical pharmacology in the field of HIV and Hepatitis.

Improved knowledge on drug efficacy/toxicity and potential drug interactions enables clinicians to further optimize antiviral treatment for their HIV and/or Hepatitis infected patients.

PROGRAM COMMITTEE
David Back, PhD
University of Liverpool, United Kingdom

Giovanni Di Perri, MD, PhD
University of Turin, Infectious Diseases, Ospedale Amadeo di Savoia, Turin, Italy

Terrence Blaschke, MD, PhD
Stanford University School of Medicine
Stanford, California, USA

Jürgen Rockstroh, MD
University of Bonn, Germany

Charles Boucher, MD, PhD
Erasmus Medical Center
Rotterdam, the Netherlands

Shirley Seo, PhD
U.S. Food & Drug Administration
Silver Spring, USA
ABSTRACT SUBMISSION

We invite you to submit abstracts for a poster or oral presentation on the following topics:

- Drug Drug Interactions
- Novel Drugs and Formulations
- Pharmacokinetics for Pediatrics, Pregnancy and other Special Populations
- PK-PD of Drug Efficacy and Toxicity
- Pharmacogenetics
- Therapeutic Drug Monitoring
- PK/PD modeling
- NEW in 2016: clinical pharmacology of drugs related to the treatment of other viruses

Accepted abstracts will be published in the journal Reviews in Antiviral Therapy & Infectious Diseases.

Free registration for young investigators with accepted abstracts!
