TREATMENT CLINIC

Suboxone Treatment Clinic

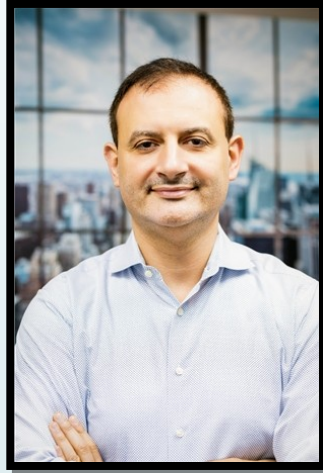

Addiction Doesn't Have To Be Forever. Help Is Here.

About Suboxone Treatment Clinic

- ▮ Suboxone Treatment Clinic NYC with locations in Manhattan, Brooklyn, Queens, and the Bronx provides methadone and suboxone addiction treatment on an outpatient basis. Come into our suboxone clinics, the best rated addiction treatment center to receive suboxone doctor counseling or suboxone treatment. Our outpatient drug rehab is among the [top suboxone treatment centers in New York](#). The goal of our New York suboxone clinic is to get you off all opioid drugs permanently. Whether you need methadone or suboxone treatment, your addiction recovery is the same, but there is no same day suboxone treatment.
- ▮ With outpatient drug rehab, you can go home each day and still receive all the benefits of rehab for substance abuse. When you visit our [free NYC outpatient rehab center](#), our suboxone doctors can help you recover and get your life back on track. Suboxone doctor Dr. Reyfman and our team of top addiction specialists in NYC accept Medicaid, Medicare and other insurances.
- ▮ Our walk-in NYC suboxone clinics will develop an individualized suboxone treatment plan for you. We offer the most advanced treatments for pain management, drug and opioid addiction in NYC. You'll find a caring team of pain management specialists who have the knowledge and expertise to treat your pain with Suboxone or another alternative. If you or a loved one is struggling with addiction to heroin, methadone, oxycodone or other narcotics, you'll find no better suboxone clinic or team of doctors that prescribe Suboxone (Buprenorphine) in New York City.
- ▮ Contact our Suboxone Treatment Clinic today to schedule an appointment by calling us at +1 (212) 224-9545

Drug Detox in NYC

▮ Suboxone Detox

It's possible to return to a healthy lifestyle and body after detoxing off Suboxone with the appropriate help and support from your physician, family and community. As overwhelming as it may seem initially, the step towards Suboxone detox, treatment and recovery can begin the road to sobriety and a drug-free life.

▮ Opiates Detox

Detoxing from opiates is the foundation on which to build your lasting recovery. Since there is no magical cure for addiction, you must struggle against relapse to maintain your sobriety. It's important that you be fair to yourself by setting realistic goals for your recovery. And transitioning with the aid of medical assistance increases your odds of successful detox.

▮ Alcohol Detox

When you wonder how to detox from alcohol, understand that it can be dangerous to try to stop drinking on your own. Round-the-clock supervision may be necessary because the sudden onset of withdrawal symptoms can cause problems you don't have the expertise to deal with. You need medical supervision when detoxing from alcohol because of the potentially lethal side effects that happen.
